Since 1991 the KHMTT has taken place Wednesday evenings in Cherry Creek State Park during April and May.

The weather is a bit unpredictable but that is what makes the KHMTT unique and challenging! The KHMTT is a seven week series with a make up date in case of a cancellation due to unsafe weather conditions.

The 9.5 mile course begins at the edge of the Cherry Creek Reservoir, winds through the wetlands southeast of the reservoir, and crosses back and forth the small creeks that supply the water for the reservoir.

The KHMTT series is a fundraiser for BRAC and the Cancer Fitness Institute in memory of Karen Hornbostel.
